#### Unbreakable Toothed Belt Drive

#### Predetermining Counter

#### — Easy To Read, Easy To Set

#### Full Pound Paste Ink Supply, Quick-Drying,

#### American-Made, Lowest Cost Per Copy

#### Post Cards Can Be Fed Either Way

## So much more can be done with this duplicator

**PRINT-LIKE RESULTS** are yours  
with these valuable printing press features  
compactly designed into this one stencil  
duplicator. Whatever you need —  
bulletins, forms, letters, instructions, folders and  
advertising pieces — can be produced quickly,  
easily and economically whenever you need them.

Because this Model 250DA automatically  
feeds, counts, inks, and stops  
feeding at the desired number of copies,  
you can relax and watch it run. Color changes  
are rapidly and simply done, making it  
easy for you to have attractive, colorful results.

### AUTOMATIC INTERLEAVER

Copies are automatically interleaved, per-  
mitting use of smoother, finer and thinner papers. Ink smudges  
are eliminated from the back of stock such as  
post cards, rag content bond, and letterhead stock.  
Copies are visible at all times.

## AUTOMATIC AIR JET PAPER STRIPPER

An air blower strips the paper from the stencils. This permits printing of a larger variety of paper stock — including thin papers.

## AUTOMATIC OSCILLATING INKING SYSTEM

Fully automatic inking delivers the correct amount of ink for all regular duplicating work. The automatic control is set and inking is done automatically. There's no contact with ink — the one-pound sealed ink cartridge supplies sufficient ink for thousands of copies with that printed look.

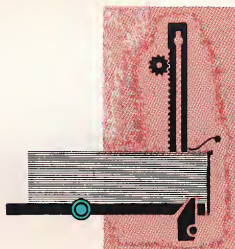

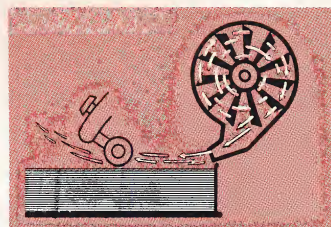

## RUGGED TOOTHED BELT DRIVE

This unbreakable steel-imbedded endless belt insures quiet, positive operation. Bearings and gears enclosed for safety. Universal motor operates on 110 volt A.C.

## AUTOMATIC PAPER LINT REMOVAL

A built-in rotary blower removes lint from the surface of each sheet, insuring clear copies and longer stencil life.

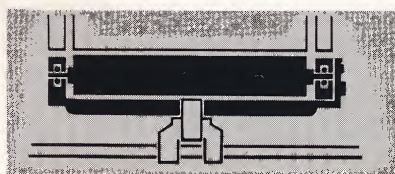

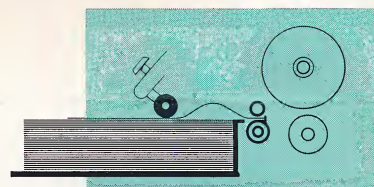

## AUTOMATIC FULL REAM RISING FEED TABLE

Holds over 500 sheets of 20 lb. paper and rises automatically to the correct level for positive single-sheet feeding action.

## EXCELLENT REGISTRATION

Each sheet is fed against the synchronized feeding device, which assures accurate registration.

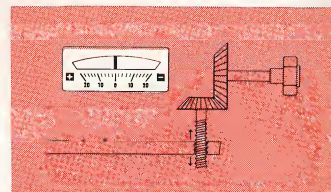

## AUTOMATIC IMPRESSION ROLLER CONTROL

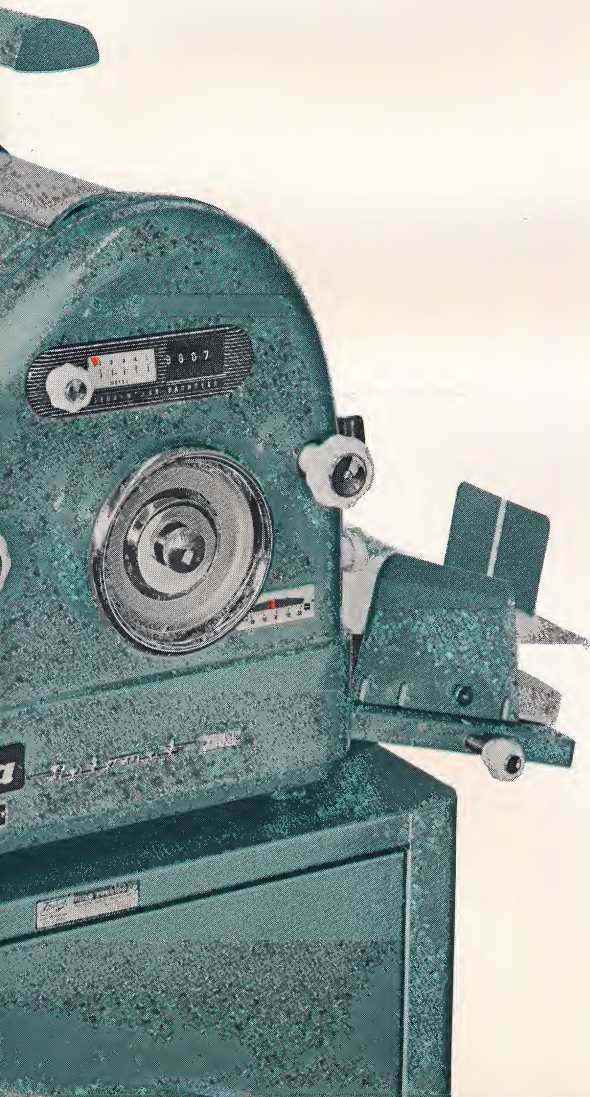

Center-bearing-mounted to provide even printing pressure all across the full width of the stencil.

## PRINTING LEVEL ADJUSTMENT DURING OPERATION

Without stopping the operation, printing copy can be moved up or down on the paper by turning the control knob. Positioning of the text, high or low, can be read on the scale. Side margins can also be adjusted during operation.

ACCESSORIES at no extra cost include 500 special interleaver sheets, postcard attachments, fitted cover, and operator's instructions.

# Now, you can reproduce photographs, printed forms and letterheads with

**Tempo-tronic**  
*Process*

With the versatility of the Tempo-tronic Process you office-print illustrated instructions, advertising pieces, ruled forms, and bulletins. Thousands of print-like copies can be produced on any stencil duplicator from one Tempo-tronic Stencil.

This Geha-electronic machine makes Tempo-tronic Stencils from your original or master copy, whether they are — photographs, drawings, halftones, printed forms, clippings, letterheads, literature, bulletins or stock art.

Poughkeepsie, N.Y.

Dear Mr. Nelson:

Thank you for asking about TEMPO Geha Stencil Duplicators, which were advertised in selected national publications.

With any of these models, you can produce all your office forms, bulletins, charts, catalog sheets....conveniently and at low cost.

Your savings can be considerable, to say nothing of the time factor and convenience of having fine "print-like" copies done with regular personnel right in your office instead of outside. For example, 1/4¢ each is the total cost for paper, ink and stencils on runs of 5000. And....only 1 1/2¢ each on runs of as few as 10 copies. Compare this with the cost of copies produced on any office copier!

The enclosed literature describes many of the outstanding features of this equipment. We are enclosing also our price schedule listing the various models of TEMPO Geha Stencil Duplicators. We specialize, exclusively in stencil duplicating equipment and supplies....offering nearly 400 items in all.

You will appreciate one of these units so much more when you see the fine work it can produce. Please call or write for a convenient demonstration in your office.
